REPORT OF LIBRARY COMMITTEE

Another year has passed, and we gladly acknowledge, in behalf of our many patrons, the benefit and pleasure derived from our library during that time.

Our librarian, Mrs. W. L. Whipple, has continued her good work to the satisfaction of all concerned. Twenty-six volumes have been added to our collection, eighteen by purchase, and eight by gift. Six from Mrs. A. P. Carll, of Plymouth, Mass. and two from Miss. Ada Peck.

We are glad to announce that a movement is under way to provide the additional shelf room we so much need, and when that is obtained we expect more books. So we are looking forward to a year of success and prosperity for this institution, and we heartily hope it may also be such to each and all its patrons.

REPORT OF SCHOOL COMMITTEE

The work accomplished in our schools since Sept. 1, 1921, has not been satisfactory to your committee in some ways.

We empowered our Superintendent to hire three teachers at salaries not to exceed \$ 20.00 per week. The result was three young, inexperienced teachers at \$ 16.00 and \$ 18.00 per week. While we feel that they have probably done their best under the existing conditions, we think they would have done much better work if they had been more closely supervised. Some of the parents have failed to support the teachers and have been very ready to criticize.

No. 5 as usual has been over crowded and no teacher can do their best under such conditions.

Your Superintendent has not attended many of the meetings of the school board although notified by letter several days in advance.

On account of the complaints of parents, at the corner, of poor transportation service, the committee voted to open the corner school, and Mr. Ellingwood, was requested to get a teacher for that school as soon as possible. He failed to get one and as your committee cannot hire, so the school was not opened.

We know the Superintendent is a busy man and human, but we feel that Goshen has been slighted so far this year.

Elmer C. Foss, Chairman.

AUDITOR'S REPORT

I, The undersigned auditor of the school district of Goshen, have examined the accounts of the treasurer and find them correctly cast and vouchers satisfactory.

HIAL F. NELSON, Auditor.

SUPERINTENDENT'S REPORT

To the School Board of Goshen:

I hereby submit my six annual report of your schools for your consideration and approval.

GENERAL

Our district, known as "District Number Forty three," (43), is one of the largest in the state, both as to the number of miles traveled by the superintendent and to the number of teachers. There are forty-five teachers divided as follows: Newport, 26; Sunapee, 10; Unity, 6; Goshen, 3. The superintendent is supposed to visit each teacher at least once every two or three weeks. Sunapee teachers are visited more often than any others as Sunapee pays one-fourth of the superintendent's salary and has only one-fifth of the teachers. During the years 1919-20 and 1920-21, or the first two years the District was formed, the superintendent made 1649 visits; an average of 36 visits per teacher, or a visit to each teacher every two weeks for the two years. Of course some teachers are visited oftener than others as they need much more help, being young and inexperienced. The superintendent tries to visit where he thinks he can do the most good.

Each year seems to bring with it more, rather than less, for the superintendent to do. He sees each year new possibilities; each year more is being demanded of our schools. Whatever other organizations fail to do the schools are expected to accomplish. The schools must teach, not only the subjects generally known as academic, but also health, cleanliness, manners, thrift, kindness to animals and love of country, town and home.

The superintendent is wholly dependant upon his teachers for his success. If they are loyal and capable he can accomplish much; if not, he can accomplish but little.

The attitude of the individual members of the School Boards, the parents, and the public as a whole has much to do with the success or failure of the schools. If there is a lack of harmony and cooperation between any of them and the superintendent it is at once felt in the atmosphere and work of the school. A few schools in the district have accomplished but little this year as well as previous years for one or more of these reasons. I am glad to state, however, that none of these conditions prevail this year in either Sunapee or Newport.

The citizens of any town will finally have just about the kind of a school they insist on having. The members elected to their School Board determine largely the kind of schools they will have as the School Board is the final authority of nearly all school matters. The superintendent is but their executive officer and can do only things approved by them. Some Boards give the superintendent freedom of action and hold him responsible for results; other Boards give him but little freedom; under the latter conditions, but little can be accomplished by him and schools will not improve or accomplish much.

IMPROVEMENTS MADE

Mill Village -- The school house has been plastered and painted on the inside. The windows have been changed from the south side to the north, thus admitting light from the rear and left side. The outbuilding has been connected with the school house but not satisfactorily. Quite a little more work needs to be done. The playground has been greatly improved and enlarged by cutting away the bushes. It has been made much safer by building the wire fence along the main road. Mr. Howe, very generously allows the pupils to play on some of his adjoining land.

Center School -- Hylophate blackboards have been installed. Number Five--Wallboard has been put onto the ceiling, the old plaster removed, and hylophate blackboards installed.

IMPROVEMENTS NEEDED

One school house a year should be painted until all have been painted. It is poor economy to let buildings go without painting them. The outbuildings should be made sanitary and respectable. New blackboards are needed in the Mill Village school house.

A jacket should be put around the stove in the Center school. This is the only school house in town in use without a jacket which adds much to the comfort of the pupils and teacher and saves fuel. I have seventeen rural school houses in my district and all but three of them have jackets around the stoves.

There are many minor repairs that need to be made. Wouldn't it be a good plan to turn the minor repairs over to the superintendent same as the other towns in the district have done? He visits the school houses every two or three weeks and can attend to having these repairs done at once; often he can do some of them himself.

Some means of ventilating the Number Five school house should be installed as this house is over crowded and is very hard to ventilate and properly heat.

TEACHERS

We are very unfortunate to lose three good teachers. All of our teachers are young and inexperienced. It is too early in the year to say just how successful they are going to be. As a rule the town that lets a few dollars stand between it and a successful teacher makes a big mistake. The children of a town are its biggest asset and the most we can do for them is to give them a good education.

TEXT BOOKS AND SUPPLIES

We are trying hard to keep the text book and supply bill as small as possible. We bother to carry books from one school to another to give them as much of a variety as possible.

The books are all stamped, covered and numbered before they are given out and a record is kept in the office where they are sent.

CLOSING

Your superintendent, for some reason, has not accomplished the desired results in your schools. They have not advanced as the schools in the other towns of his district have done. Doubtless he is largely to blame for this but fails to see wherein he has not done his best in your town the same as he has in the others. We shall never get the desired results until School Board, parents, teachers, pupils superintendent work together for the best interests of the schools.

Your superintendent is helpless just as long as he does not have the cooperation of those mentioned above.

Why not give him a fair trial for a year and see what he can accomplish? He has only one desire and that is to give you the best schools possible.

Very respectfully submitted,

W. H. S. Ellingwood.
